

About Us

SEAMLESS TREATMENT

Life Center of Galax offers specialized addiction and co-occurring mental health treatment through a comprehensive continuum of care. We've designed our services to provide highly personalized support that meets each person where they are in their recovery process and provides a variety of tools to help them achieve ongoing success. While many people begin their recovery journeys with us by participating in detox, others may transition to one of our programs after completing treatment at another level of care. We offer continuing care services at our Galax facility, our Hillsville location, and at Southstone Recovery Center.

Regardless of the program you participate in, you can feel confident that you'll receive care that honors your unique life experiences and needs. To discover how our programming may help you or a loved one heal from the impacts of addiction, we encourage you to contact our treatment center today.

TREATMENT PHILOSOPHY

At Life Center of Galax, we place a strong focus on increasing access to quality addiction treatment. To this end, our teams strive to deliver focused care and offer diverse services for each person who chooses to pursue recovery with us. Our goal is to help each person find effective and meaningful support so that they can move forward toward a brighter future.

112 Painter Street | Galax, VA 24333

Continuum of Care

Life Center of Galax provides a full continuum of care for adults who are suffering from addictions and certain co-occurring mental health concerns. In each of our programs, we strive to deliver exceptional care in an atmosphere of trust and support.

Detoxification

To help adults safely rid their bodies of substances they have been using, Life Center of Galax provides subacute medical detoxification (detox) services. Our detox services include medical and therapeutic support that is delivered in a safe, on-site setting.

Residential Treatment

Our residential program is ideal for adults who need 24-hour support in a structured environment. In this program, patients can receive medical care as well as individual, family, and group therapies. We also offer medication-assisted treatment (MAT) for adults who have opioid addictions, along with other specialty services.

PHP Services

Our partial hospitalization program (PHP) provides intensive treatment seven days a week. By offering comprehensive care and personalized services, our PHP can help patients find lasting success in recovery.

Gender-Specific Programs

RESIDENTIAL CARE AT HILLSVILLE

Life Center of Hillsville is an addiction treatment center in Hillsville, Virginia, serving men age 18 and older. This facility offers clinically managed residential treatment in a comfortable and welcoming setting. A person's treatment plan at the residential level can include basic medical care, medication management services, and a wide range of therapeutic interventions. The programming at our Hillsville location focuses on promoting recovery through an abstinence-based approach, and we frequently provide care for patients who have developed addictions to alcohol, cocaine, meth, and marijuana. Our Hillsville facility also provides care for patients who have co-occurring mental health conditions.

PHP SERVICES

The Hillsville PHP provides a step-down level of care for men who do not require 24-hour support but can benefit from intensive programming. Treatment plans can include medical care, medication management support, daily groups, 12-Step meetings, and other effective treatment modalities. Our comprehensive Hillsville PHP also includes MAT services for men who are struggling with opioid addictions.

SOUTHSTONE RECOVERY CENTER

Southstone Recovery Center offers a premier PHP for women age 18 and older who are struggling with substance use disorders and co-occurring mental health concerns. The supportive and skilled staff at Southstone Recovery Center understands the value of gender-specific care for women who are working toward recovery. To help each woman gain healthy coping skills and rediscover hope for the future, they provide an enriching set of personalized therapies and services. These can include individual and family therapies, medication management, and a broad range of focused group sessions.

Located in South Boston, Virginia, Southstone Recovery Center features a serene, 200-acre campus that includes on-site lodging for participants. Partial hospitalization programming occurs seven days a week and focuses on addressing the unique needs of each woman.
